Joining Colorado Urology

A UNITED UROLOGY GROUP AFFILIATE

Welcome to Colorado Urology

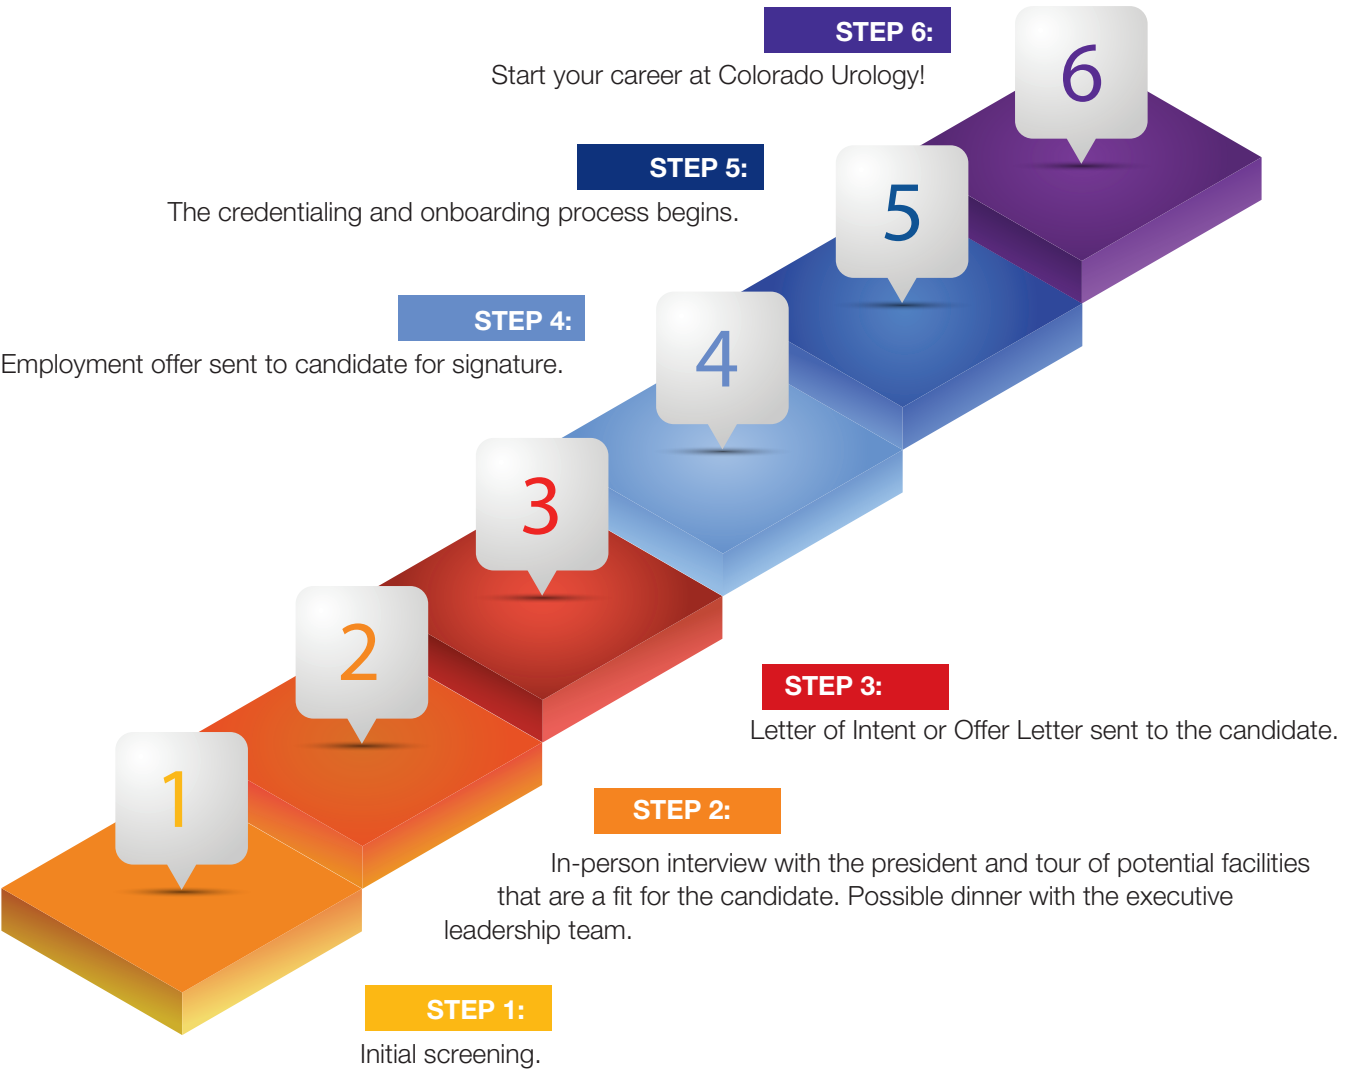

Colorado Urology is the region’s premier urology practice serving patients throughout the greater Denver and Boulder areas, including Aurora, Lone Tree/Parker, Lakewood, and Castle Rock.

Colorado Urology’s ambulatory surgery centers and two state-of-the-art prostate cancer centers provide patients with personalized, superior care. The IR Centers at Colorado Urology is a state-of-the-art Interventional Radiology (IR) Center offering prostatic artery embolization (PAE) for the treatment of BPH/enlarged prostate.

The experienced team includes board-certified urologists, a radiation oncologist, and advanced practice providers (APPs) including physician assistants and nurse practitioners. An integrated approach to urologic care provides patients access to experienced specialists, a comprehensive support team of healthcare professionals, innovative diagnostic tools, clinical trials, and advanced treatments and therapies.

Joining Colorado Urology

From career support and professional growth to mentorship and work/life balance, there are many benefits to being a part of Colorado Urology. Here’s what you can expect as part of the hiring process:

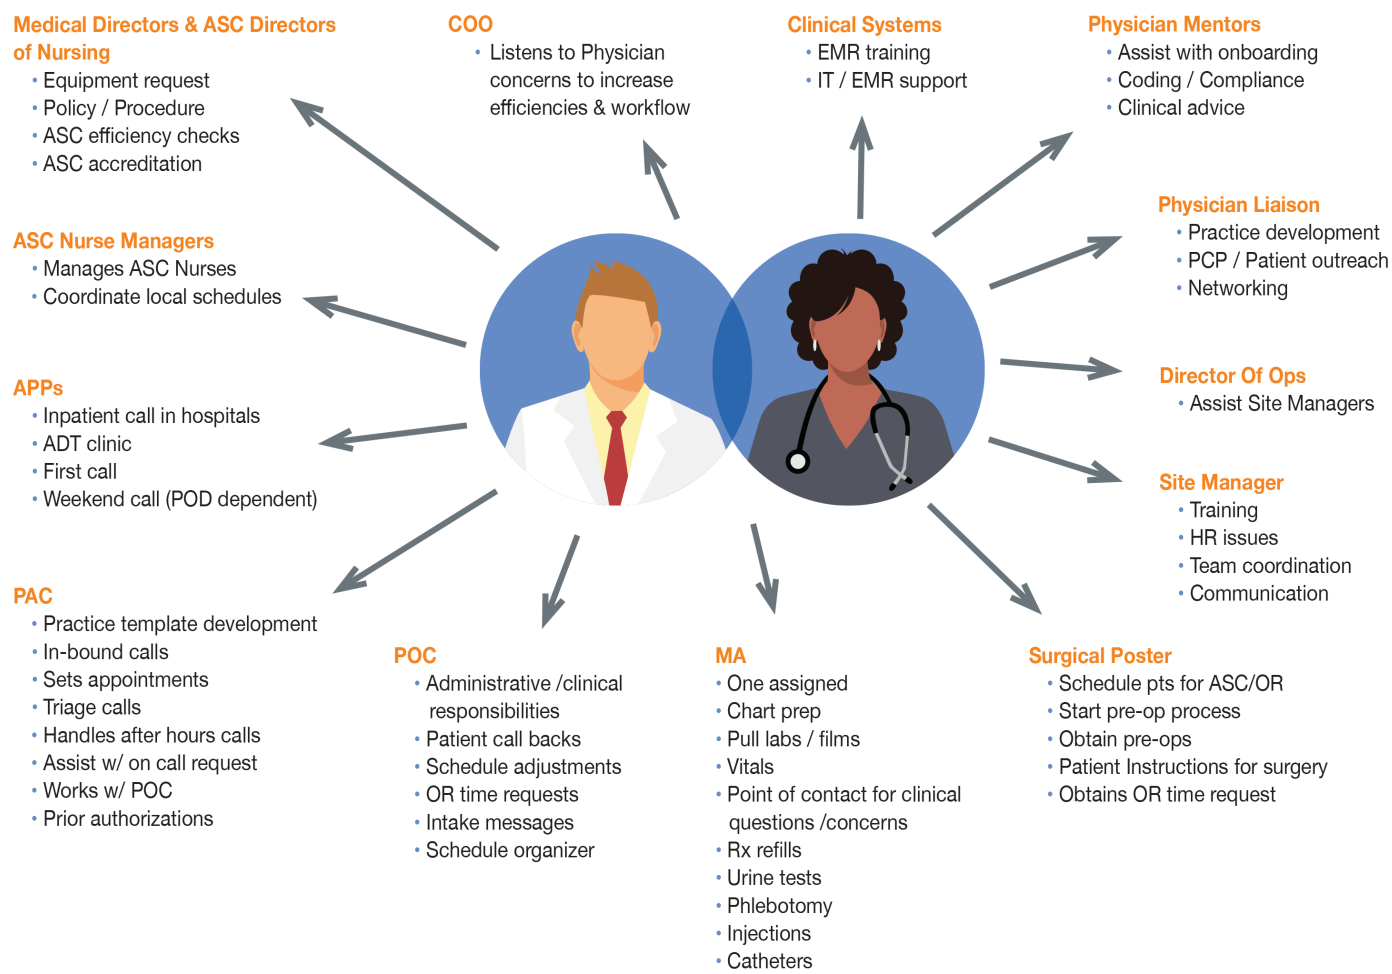

The Team That Surrounds You

WHAT SETS COLORADO UROLOGY APART

Associate and senior physicians benefit from an experienced team of healthcare and administrative professionals, working together to support your practice and help you provide exceptional patient care.

Our clinics offer modern and comfortable spaces to practice with inviting waiting areas, full-service exam rooms, offices, and other clinical spaces.

Clinical Benefits

AMBULATORY SURGERY CENTERS (ASC)

Colorado Urology’s ambulatory surgery centers are certified by the Accreditation Association for Ambulatory Health Care (AAAHC). Physicians have access to state-of-the-art urological equipment for surgery and surgical staff (nurses, surgical technicians, medical assistants) are specialty trained in urological care.

COLORADO PROSTATE CANCER CENTER

Colorado Prostate Cancer Center offers a variety of treatment options including cutting-edge therapies such as IMRT/IGRT.

Unlike other radiation therapy centers that treat various kinds of cancer, Colorado Urology’s center only specializes in and focuses on prostate cancer. The team includes radiation oncologists who work closely with referring urologists and the prostate cancer care team, radiation physicists, medical dosimetrists, and radiation therapists. Providing patients with a dedicated radiation therapy center for treatment, specially equipped with advanced technology is an important component of our comprehensive prostate cancer program.

IR CENTERS AT COLORADO UROLOGY

The state-of-the-art Interventional Radiology (IR) Centers at Colorado Urology offer the latest minimally invasive, image-guided technology. For patients diagnosed with BPH/enlarged prostate, IR Centers offer prostatic artery embolization (PAE), an innovative procedure for the treatment of this common condition. Experienced interventional radiologists work with urologists to provide a continuum of care and excellent outcomes for patients.

Colorado – A Great Place to Live, Practice, Thrive

With office locations throughout the Denver Metro area, Colorado Urology physicians can choose to live and work near the foothills of the Rocky Mountains, in smaller towns along the Front Range, or a big city.

CITY, SUBURBAN, & NATURAL LIVING

Known for its breathtaking landscapes, Colorado boasts the Rocky Mountains, acres of forests, tranquil plains, as well as thriving urban areas and communities. For those who enjoy city living, Denver offers a sophisticated restaurant scene, expansive theater district, growing arts scene, and convenient public transit system.

For individuals looking for a smaller town feel, Colorado Urology has offices in several towns along the Front Range including Castle Rock, Westminster, Boulder, and Superior that offer diverse cultures, arts, festivals, and music. Outdoor enthusiasts will enjoy Colorado’s natural world with plentiful hiking, skiing, and other recreational activities year-round. The state is also known for its craft breweries and farm-to-table dining scene.

SOMETHING FOR EVERYONE

Colorado has something to offer every lifestyle with a focus on the great outdoors, wellness, and an active, healthy lifestyle for all ages. The state is home to top-notch public and private schools and universities including the University of Colorado and Colorado State University. Thriving family-oriented communities, leading healthcare systems, and major sports teams including the Denver Broncos, the Colorado Rockies, and the Colorado Avalanche contribute to Colorado’s growth and allure.
